the chan zen in japanese school began when in seventh century china a small religious community gathered around a buddhist monk named hongren over the centuries chan buddhism grew from an obscure movement to an officially recognized and eventually dominant form of buddhism in china and throughout east asia it has reached international popularity its teachings disseminated across cultures far and wide in monks rulers and literati albert welter presents for the first time in a comprehensive fashion in a western work the story of the rise of chan a story which has been obscured by myths about zen zen apologists in the twentieth century welter argues sold the world on the story of zen as a transcendental spiritualism untainted by political and

institutional involvements in fact welter shows that the opposite is true relationships between chan monks and political rulers were crucial to chan s success the book concentrates on an important but neglected period of chan history the 10th and 11th centuries when monks and rulers created the so called chan golden age and the classic principles of chan identity placing chan s ascendancy into historical context welter analyzes the social and political factors that facilitated chan s success as a movement he then examines how this success was represented in the chan narrative and the aims of those who shaped it monks rulers and literati recovers a critical period of zen s past deepening our understanding of how the movement came to flourish welter s groundbreaking work is not only the most comprehensive history of the dominant strand of east asian buddhism but also an important corrective to many of the stereotypes about zen

this book initiates a paradigm shift away from zen chan as quintessentially buddhist and examines what makes chan thought and practice unique and original through an interdisciplinary investigation of the nature and rationale of chan and its enlightenment exploring how enlightenment is achieved through chan practice and how this differs from other forms of buddhism the book offers an entirely new view of chan that embraces historical scholarship philosophical inquiry textual analysis psychological studies chan practice and neuroscientific research and locates the core of chan in its founder huineng s theory of no thinking which creatively integrates the taoist ideas of zuowang forgetting in seated meditation and xinzhai fast of heart mind with his personal experiences of enlightenment it concludes that chan is the crystallization of an innovative synthesis of buddhism daoism and confucianism as well as other resources of somatic and spiritual cultivation and that enlightenment is a momentary return to the mental state of a baby before birth this book will appeal to students and scholars of religion philosophy and neuroscience it will also offer new insights to thinkers writers artists therapists and neuroscientists as well as those practicing zen mindfulness and psychotherapy
